ASMA MUHAMMED

Data Analyst | BI Analyst

Doha, Qatar | asma_muhammed@hotmail.com | +974 33301096 | linkedin.com/in/asmamuhammed

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with hands-on experience building interactive dashboards, KPI reporting systems, and data-driven insights using Excel and Power BI. Proven ability to clean and transform raw datasets, apply DAX logic, and translate complex business requirements into clear, actionable reports. Background in HR and Sales analytics, with a strong academic foundation in Accounting & Finance (MBA). Currently completing a Data Analyst and Business Intelligence AI-enhanced certification. Based in Doha and open to remote opportunities.

CORE SKILLS

Microsoft Excel	**Power BI**	**DAX & Measures**
Power Query	**SQL (Basic)**	**PivotTables & Slicers**
KPI Dashboard Design	**Data Cleaning**	**Data Visualization**

EXPERIENCE

Dec 2025 – Mar 2026

Data Analyst Intern

ElevanceSkills — Remote

- Completed structured data analyst training through real-world project assignments covering data cleaning, visualization, and KPI development.
- Built Power BI dashboards analyzing Twitter engagement metrics, applying DAX measures and advanced filtering logic.
- Developed proficiency in translating business questions into analytical workflows using Power BI and Excel.

PROJECTS

Excel | VBA | PivotTables

HR Analytics Dashboard

- Built an interactive HR dashboard tracking employee attrition, salary bands, tenure, and manager-level termination rates.
- Created KPI cards for headcount, active vs. terminated staff, attrition rate, average salary, engagement, and absences.
- Unified multiple PivotTables with a shared pivot cache so slicers control the entire dashboard simultaneously.
- Used VBA (AI-assisted) to automate KPI card layout using GETPIVOTDATA, resolving slicer-sync and reference errors.

Excel | Charts | Slicers

Sales Performance KPI Dashboard

- Designed a dynamic sales dashboard tracking total revenue, profit, quantity sold, product performance, and payment modes.
- Built charts for monthly sales trends, top products, category performance, and payment method breakdowns.
- Implemented slicers enabling real-time filtering by month, year, category, and sale type.

Excel | PivotTables

Retail Online Store Analysis

- Cleaned and analyzed transactional retail data to identify sales trends, customer behavior, and top-performing products.

- Created PivotTables analyzing revenue by product, country, and time period to support inventory and sales planning.

Power BI | DAX

Twitter Engagement Analytics Dashboard

- Imported and cleaned a Twitter dataset in Power BI, formatting date/time fields and creating calculated columns for analysis.
- Developed engagement KPIs (likes, retweets, replies, impressions, engagement rate) using Power BI measures.
- Applied advanced conditional filtering — posting hours, weekday rules, character limits — to refine engagement comparisons.
- Compared engagement rates between tweets with and without user interaction events through targeted visualizations.

EDUCATION

CGPA: 3.67 / 4.0

Master of Business Administration (MBA) — Accounting & Finance

National College of Business Administration & Economics (NCBA&E), Lahore, Pakistan
